VAPOR INHALATION CHAMBER SYSTEMS FOR PRECISION DRUG DELIVERY.

BY LA JOLLA ALCOHOL RESEARCH, INC.

La Jolla Alcohol Research, Inc. (LJARI) continues to be the leader in the design and manufacture of inhalation chamber systems for long-term or intermittent delivery of drugs of addiction and environmental contaminants via vapor. Our passive/forced and self-administration/operant vapor chambers enable investigators to target and maintain remarkably consistent drug levels in their animal models.

Contact us to learn how we can design a system or experimental protocol to meet your individual needs.

Experience the Daily ASPET Datablitz ASPET Poster Discussion Area Booth #820 1:00 pm - 2:00 pm

Join us for a rapid-fire oral presentation of research. Ten poster presenters each day will present four minute short talks in the ASPET poster discussion area in the poster hall. These brief snippets of research are an introduction to their full presentations that will take place at their poster boards afterwards. You won't want to miss this fast-paced overview of the most exciting science of the day.
