

OPEN ACCESS OPTIONS

ASPET authors have the option to publish their work under a [Creative Commons Attribution license](#) (CC-BY) and a [Creative Commons Attribution Noncommercial license](#) (CC-BY-NC). Effective January 2023, ASPET will end page charges for Open Access papers, and members will automatically be exempt from page charges if they choose to opt-in for Open Access.

ASPET members will continue to pay the same fees for the CC-BY (\$3,000) and the CC-BY-NC (\$2,000) options. Non-members will pay \$3,500 for CC-BY and \$2,500 for CC-BY-NC.

An Open Access License Agreement should be digitally signed in place of a Copyright Transfer Agreement. The form is provided in the manuscript submission system. Open Access articles will not appear online until the Open Access fee has been paid through the Copyright Clearance Center's Rightslink for Scientific Communication (RLSC) system. A link to the RLSC is provided from the manuscript submission system. Some funders require authors to utilize an Open Access option when it is available. **Please know your funder's requirements prior to submission.**

ASPET does not offer refunds for Open Access fees. If an error related to Open Access is identified in a published article (e.g., missing Creative Commons license, article not freely accessible, or article not deposited with PubMed Central), ASPET will correct the error.

Below are links to each journal's Open Access

- [Drug Metabolism and Disposition](#)
- [The Journal of Pharmacology and Experimental Therapeutics](#)
- [Molecular Pharmacology](#)
- [Pharmacological Reviews](#)
