About ASPET

The American Society for Pharmacology and Experimental Therapeutics (ASPET), founded in 1908, is an international 4,000-member non-profit pharmacology society that advances the science of drugs and therapeutics to accelerate the discovery of cures for disease. ASPET members conduct basic and clinical pharmacological research in academia, industry and the government. ASPET publishes four journals with the most recent discoveries in pharmacology and related fields. ASPET supports the dissemination and use of pharmacological research to promote the best available science in developing regulations and legislation. ASPET is headquartered in Rockville, Md.
