

## LATE-BREAKING ABSTRACT SUBMISSION INSTRUCTIONS

**Deadline: Friday, February 21, 2014, 11:59 PM (Eastern)**

**All late-breaking abstracts will be programmed as posters scheduled on Wednesday, April 30, 2014.**

**For a list of Society contacts, please scroll to the last page.**

**All abstracts must be submitted electronically. Please review the Rules and Guidelines before submitting an abstract.**

Each abstract should contain:

- a sentence stating the study objective (unless given in the title);
- a brief statement of methods, if pertinent;
- a summary of the results obtained;
- and a statement of the conclusions. It is not necessary to say "the results will be discussed."

In addition:

- Use a short, specific title with upper and lower case letters. **Do not put a period at the end of the abstract title.**
- Capitalize initial letters of trade names.
- Use standard abbreviations for units of measure.
- Other abbreviations should be spelled out in full at first mention, followed by the abbreviation in parentheses. Exceptions: DNA, RNA, etc.
- **Include the source of research support in the textbox indicated on the submission form.**

The topic that you select from the topic category list determines which society receives and programs your abstract. Therefore, it is important that you review the society topic categories before submitting your abstract. Topics are listed by Society, alphabetically and numerically by topic code, on the left side of your screen on each page as you go through the submission process. Please follow the instructions below.

### **Remember which society is programming your abstract**

- Your abstract will be received and programmed by the society (discipline) which lists your topic choice (not the society to which the abstract sponsor belongs).
- Each society uses a different programming method – your abstract may go to a program committee or to a session chair.
- Knowing which society is programming your abstract makes follow-up easier. Please keep a record of this for your files.

**Upload Your Abstract by Submitting a Word Processor File** – It is faster to submit a Word Processor File! If your abstract contains tables, graphics or figures, you **must** use this option. Use the browse button to select your abstract. **Entering Your Abstract on the Submission Site** – Select this option if the abstract contains only text, Greek characters, math symbols, and super/subscripts.
